Munitions for Law Enforcement and Corrections

**Registration is Now Open for:
Less Lethal Munitions Instructor Course
June 5-7, 2024 (RESCHEDULED)**

Hosted by:

**Southwest Virginia Criminal Justice Training Academy
Bristol, VA**

1595 Bonham Road, Bristol, VA 24201

Instruction by: Paul Widener, ALS Certified Master Instructor

This three-day certification course will prepare instructors to develop and implement departmental training programs in each of the topic areas, each of which is one day of instruction (Chemical, Impact, and NFDD). Departments desiring to become/remain certified in an individual discipline may register for a single topic only at a reduced cost (see registration form):

Disciplines Covered:

Chemical Munitions & OC/Chemical Sprays

Impact Munitions

Diversionsary Devices (NFDDs) and Stun Munitions

Each day consists of classroom instruction in the morning, followed by hands-on instruction and deployment of munitions on the range in the afternoon. All munitions as well as student and instructor materials for each attendee are included. Certifications are valid for a period of three years from the date of completion.

Please see the course overview for more information. Registration forms (available on request from training@cwealthind.com) are requested 30 days prior to the course start date in order to provide sufficient munitions for students, although registration can be completed up to the week prior space and supplies permitting.

For more information, please contact:

Paul Widener 276-525-1969 (o) or 276-608-2091 (c) Or email: training@cwealthind.com
